

A PARENT'S GUIDE TO SUPPORTING

ONLINE LEARNING!

Improve Your Child's Online Learning!

A QUIET WORKSPACE IS IMPORTANT!

Your child needs a quiet, distraction free, place to work each day!

Be aware that siblings playing, adults talking, and televisions can all be distracting while your child is online. By eliminating distractions, you are improving your child's ability to learn.

SET ROUTINES!

Keep all of your child's materials in one space, make a checklist of daily essentials, post your child's schedule, and help with time management.

RESPECT BOUNDARIES!

Allow your child the opportunity to be an independent, active participant in class. It is acceptable to check-in with your child. However, interacting with your child during class is disruptive to the learning process.

ASK QUESTIONS!

The teacher is there to help! Ask questions about procedures and assignments.

Good communication goes a long way.

TREAT ONLINE LEARNING LIKE FACE-TO-FACE LEARNING !

Learning online can be as rewarding as face-to-face learning. Have the same expectations for online class that you have for in-person learning: including your child's behavior, attendance, and completing assignments. Your child will follow your lead when it comes to the importance of online learning.
